COURSES

The Complete 2023 Web Development Bootcamp, *Udemy*

Special Web Design, *MMSIT*

PROJECTS

E-commerce Cart Management

Developed a responsive e-commerce website using React.js, incorporating features such as product listing, filtering, and shopping cart functionality.

Implemented Redux for state management and integrated with a RESTful API for retrieving and updating product data.

Utilized Tailwind to create a visually appealing and user-friendly interface.

Contact CRUD

Created a single-page application using React.js, Redux and React Router to display users' contacts from contact Api which is developed by MMSIT institution.

Implemented user authentication and authorization features using contact Api for secure user access.
